

The Future of the EUSAIR

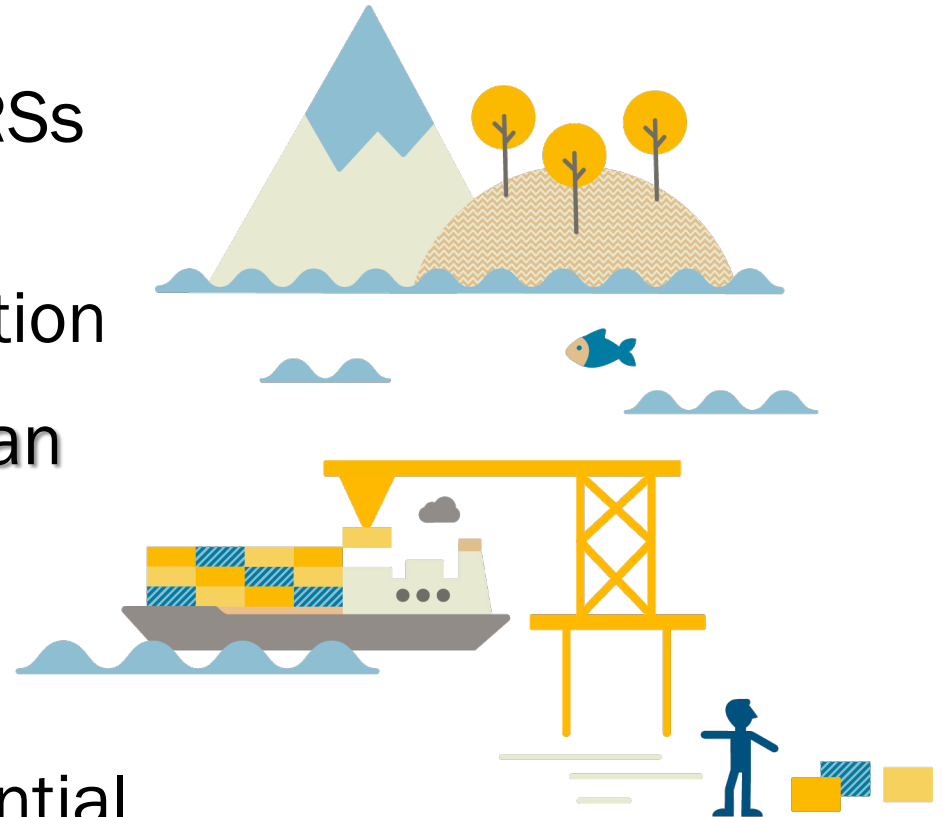

7 April 2022 | Ancona, Italy

Ivano Magazzu Interact

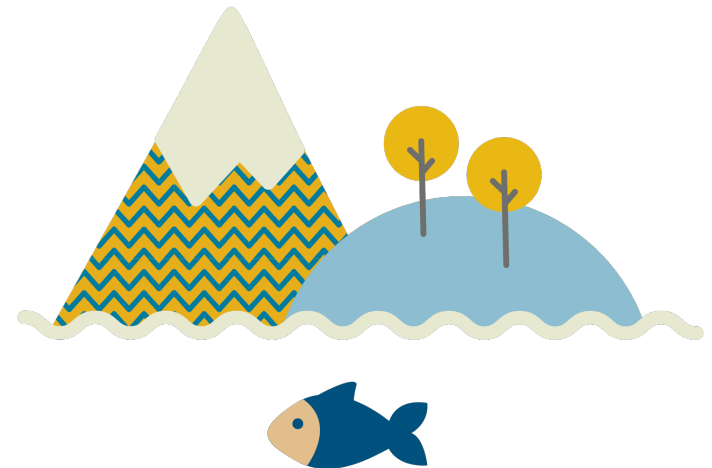

Innovation and resources

- Capacity building for MRSs stakeholders
- Synergies and Coordination
- Pilot in the Mediterranean area (17 programmes involved)
- Common provisions →
POs/SOs mapping/potential
Thematic Clusters →
Possible (joint)
actions/procedures

Innovation and resources

- Support to permanent coordination mechanism → ETC MAs network
- Inter-programme coordination (support to capitalisation and networking – Interreg methodology)
- Capitalise programme results beyond Interreg ‘bubble’
- Support to embedding cooperation actions

Embedding cooperation actions

Cooperation Actions
What is it about?

Have look at the Interactive map for possible cooperation actions

www.cooperationactions.eu

© European Regional Development Fund

- Competitiveness of SMEs/ Entrepreneurship
- Innovation
- Environment/Energy (Change)/ Renewable energy/Energy Efficiency/ Water/Climate/Gas/Emission Management/ Sustainability
- Tourism/Culture
- Social Innovation/Social Affairs/ Migration/Social Inclusion/ Health/Social Services
- RIS3/PS3
- Research/Technology Transfer/Science
- Transport/Low carbon economy/Mobility
- Economy/Development/Business/Rural areas
- Agriculture
- ICT
- Sustainable Growth
- Education, training and employment/ Labour market
- Youth and sport
- Exchanges

Lessons learned

- *Participative processes*
- *Interreg at the core, for its own nature as “cooperation dimension of cohesion” → we need cooperation to overcome borders*
- *Thematic concentration and FLAGSHIP, for easier practical implementation*
- *Identify complementarities of actions → inter-programme capitalisation*
- *Further coordination & CAPITALISATION models (2021-2027) among MRSs*

Suggestions

1. Formalization of MA network – EUSAIR ACT Lab
2. Coordination support is essential
3. Community building among programmes/flagship leaders/thematic coordinators → trust....

Cooperation works
